WELCOME TO
AR ENGINEERING

Welcome to AR Engineering, where innovation, precision, and reliability come together to deliver world-class engineering solutions. Established with a commitment to excellence, AR Engineering specializes in Building Information Modeling (BIM), Mechanical, Electrical & Plumbing (MEP) engineering, Fire & Life Safety systems, industrial pump services, HVAC solutions, and other advanced engineering technologies. We proudly serve industrial, commercial, and residential sectors with tailored solutions designed to meet the highest standards of quality, safety, and performance.

At AR Engineering, we believe that every project deserves dedicated attention, technical excellence, and professional integrity. Our experienced team of engineers, designers, and technicians works collaboratively to provide cost-effective, sustainable, and innovative solutions that exceed client expectations.

We are committed to building long-term relationships through trust, quality workmanship, timely delivery, and exceptional customer service. With a strong focus on health, safety, and environmental responsibility, we strive to contribute to a safer and more sustainable future.

Thank you for choosing AR Engineering as your trusted engineering partner. We look forward to working with you and turning your vision into reality.

AR Engineering
Engineering Excellence Through Innovation and Integrity

MESSAGE
FROM FOUNDER

Welcome to AR Engineering.

At AR Engineering, we believe that engineering is not only about designing systems—it is about creating safe, sustainable, and innovative solutions that add value to our clients and society. Since our establishment, we have remained committed to delivering precise, reliable, and high-performance engineering services with the highest standards of quality, integrity, and professionalism.

Our expertise in Building Information Modeling (BIM), Mechanical, Electrical & Plumbing (MEP) engineering, Fire & Life Safety systems, industrial pump services, and other advanced engineering solutions enables us to serve a diverse range of industrial, commercial, and residential projects. We continuously strive to adopt modern technologies and international standards to ensure excellence in every aspect of our work.

At AR Engineering, client satisfaction is our highest priority. We are dedicated to understanding our clients' unique requirements and providing cost-effective, innovative, and sustainable solutions tailored to their needs. Our skilled team of engineers and technical professionals works tirelessly to ensure timely project delivery while maintaining the highest standards of safety and quality.

As we move forward, we remain focused on building long-term partnerships based on trust, transparency, and mutual success. We sincerely thank our valued clients, partners, and stakeholders for their continued confidence and support.

Together, we look forward to building a safer and more sustainable future.

Engr. Md. Ashikur Rahman
Founder & CEO
AR Engineering

MESSAGE
FROM THE ADVISOR

It is a privilege to be associated with AR Engineering as an Advisor. Since its inception, the company has demonstrated a remarkable commitment to excellence, innovation, and professional integrity in delivering engineering solutions.

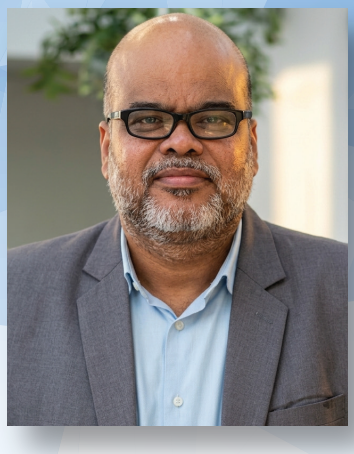

AR Engineering's expertise in BIM, MEP, Fire & Life Safety, and industrial engineering services reflects its dedication to quality, safety, and technological advancement. The company's client-centric approach and adherence to international standards position it as a trusted partner in the engineering sector.

I am confident that, under its visionary leadership and with the dedication of its talented team, AR Engineering will continue to achieve sustainable growth and make significant contributions to the industrial and infrastructure development of Bangladesh.

I extend my sincere appreciation to the entire team and wish them continued success in all future endeavors.

Together, we look forward to building a safer and more sustainable future.

Prof. Dr. Md. Shahidur Rahman
Advisor, AR Engineering
Professor, Department of Poultry Science
Faculty of Animal Husbandry, BAU

MESSAGE
FROM THE ADVISOR

It is a great pleasure to be associated with AR Engineering, an organization that exemplifies innovation, professionalism, and engineering excellence. In today's rapidly advancing technological landscape, the demand for reliable and sustainable engineering solutions is greater than ever, and AR Engineering is well-positioned to meet these challenges with competence and integrity.

The company's expertise in BIM, MEP, Fire & Life Safety, and other advanced engineering services demonstrates its commitment to quality, safety, and continuous improvement. Its dedication to adopting modern technologies and maintaining international standards reflects a forward-thinking vision for the future.

I am confident that, under its dynamic leadership and with the unwavering commitment of its skilled professionals, AR Engineering will continue to grow as a trusted name in the engineering industry and make meaningful contributions to national development.

I extend my sincere appreciation to the entire team and wish AR Engineering continued success in all its future endeavors.

Prof. Dr. Md. Mizanur Rahman, CEngr
Professor, PhD (UMS), MSc (USF & MU)
Department of Mechatronics Engineering
World University of Bangladesh (WUB)

MESSAGE FROM THE DSITINGUISHED ADVISOR

It is a privilege to be associated with AR Engineering, an organization that exemplifies excellence, innovation, and professionalism in the field of engineering. In today's dynamic and rapidly evolving industrial landscape, the pursuit of quality, safety, and sustainability is essential, and AR Engineering continues to demonstrate a strong commitment to these values.

Through its expertise in BIM, MEP, Fire & Life Safety, and advanced engineering solutions, AR Engineering has established a solid foundation for delivering reliable and value-driven services. The company's dedication to technical excellence, adherence to international standards, and customer-focused approach are truly commendable.

I am confident that, under its visionary leadership and with the dedication of its skilled professionals, AR Engineering will continue to achieve sustainable growth and emerge as a trusted leader in the engineering industry.

I extend my sincere appreciation to the entire team and wish them continued success in their endeavors toward innovation, excellence, and national development.

Dr. Walton Wider (Senior Lecturer)
Distinguished Advisor
AR Engineering
INTI International University, Malaysia

HISTORY OF
AR ENGINEERING

AR Engineering was established in May 2024 by Engr. Md. Ashikur Rahman with a vision to provide innovative, reliable, and high-quality engineering solutions to the industrial, commercial, and residential sectors. Founded on the principles of integrity, professionalism, and technical excellence, the company has rapidly emerged as a trusted name in the engineering industry.

From its inception, AR Engineering has focused on delivering comprehensive engineering services, particularly in the fields of Building Information Modeling (BIM), Mechanical, Electrical and Plumbing (MEP) engineering, Fire & Life Safety systems, HVAC solutions, industrial pump services, and other advanced engineering technologies.

ADriven by a commitment to innovation and continuous improvement, AR Engineering has assembled a highly skilled team of engineers, designers, and technicians with extensive industry experience. The company has also established strong relationships with globally recognized manufacturers and technology partners to ensure the delivery of world-class products and services.

Today, AR Engineering continues to expand its capabilities while maintaining its unwavering commitment to quality, safety, sustainability, and customer satisfaction. With a forward-looking vision and a passion for engineering excellence, the company is dedicated to contributing to the industrial and infrastructure development of Bangladesh and beyond.

MISSION

Our mission is to deliver innovative, reliable, and high-performance engineering solutions that meet the evolving needs of industrial, commercial, and residential sectors.

We are committed to providing excellence in BIM, MEP, Fire & Life Safety, HVAC, industrial services, and other advanced engineering solutions through technical expertise, modern technologies, and continuous improvement.

VISION

Our vision is to become a leading and globally recognized engineering company, renowned for technical excellence, innovation, and uncompromising commitment to quality and safety. We aspire to set new benchmarks in engineering services by adopting advanced technologies, international standards, and sustainable practices.

AR Engineering envisions playing a significant role in the industrial and infrastructure development of Bangladesh and beyond by delivering world-class solutions that create lasting value for clients, society, and future generations.

WHY CHOOSE
AR ENGINEERING

Technical Expertise: Highly skilled engineers and professionals with extensive industry experience

Comprehensive Solutions: End-to-end engineering services in BIM, MEP, Fire & Life Safety, HVAC, and industrial systems.

Quality Assurance: Commitment to delivering services in compliance with national and international standards

Innovation & Technology: Utilization of modern technologies and advanced engineering practices for optimized solutions.

Safety First: Strong emphasis on health, safety, and environmental responsibility in every project.

Client-Centric Approach: Tailored solutions designed to meet the specific needs and expectations of our clients.

Timely Delivery: Efficient project management ensuring on-time completion without compromising quality.

Cost-Effective Solutions: Delivering innovative and value-driven engineering services at competitive costs.

Professional Integrity: Maintenance of highest standards of ethics, transparency, and professionalism.

Customer Satisfaction: Dedicated to building long-term relationships through exceptional service and support.

AR Engineering Servies

AR Engineering provides comprehensive engineering solutions designed to meet the demands of industrial, commercial, and residential projects. Our services are delivered with a strong focus on quality, safety, and compliance with national and international standards.

CONSULTANCY

- BIM-Building Information Modeling
- MEP (Mechanical, Electrical & Plumbing) Engineering
- Engineering Design and System Planning
- System Simullation by Ansys Software
- Clean Room Technology
- Passive Fire Protection System
- Foam Base Fire Protection System
- Water Base Fire Protection System
- Gas Base Fire Protection System
- Conventional Gain Drying System
- Code Compaliance as per BNBC, OSHA, NFPA, IBC

PROJECT ERECTION

- VRF and HVAC Systems
- Fire Sprinkler System
- Fire Standpipe System
- Fire Detection System
- Fire Suppression System (Gas & Foam)
- Flat Bed Gain Dryer
- Passive Fire Protection System on Steel Building
- Plumbing & Draines System
- Compress Air Handling System
- PA & BMS System
- Clean Room System Accesories

MAINTENANCE

- Preventive & Corrective Maintenace of Industrial Pump
- Fire Protection System Accesories
- General and Master Service of Fire Pump
- Boiler Service and Maintenace
- Hydrostatic Test of Boiler
- Annaul Maintenace Contact of Electro-Mechanical System
- Fire & Life Safety System Maintenace

AR Engineering Work Plan & Schedule

(BIM-Based Engineering Flow Chart)

01

PROJECT INITIATION

- Client Requirements
- Site Analysis

CONCEPT & FEASIBILITY DESIGN

- Feasibility Study
- Initial MEP Planning

02

03

ENGINEERING DESIGN & SIMULATION

- Engineering Design and System Planning
- Simulation Analysis Using Ansys Software
- MEP Coordination and Optimization

DETAILED ENGINEERING DESIGN (MEP FOCUS)

- HVAC, Electrical, Plumbing, Fire Systems Design
- Plot Wise Gain Dryer Design
- Code Compliance (BNBC, NFPA)
- BOQ and Documentation

04

05

DOCUMENTATION & APPROVAL

- Shop Drawings
- Technical Submittals

PROCUREMENT & PROJECT ERECTION

- MEP System / Equipment Procurement
- Pot Bed Grain Dryer Installation
- Site Supervision and Execution
- Testing & Commissioning

05

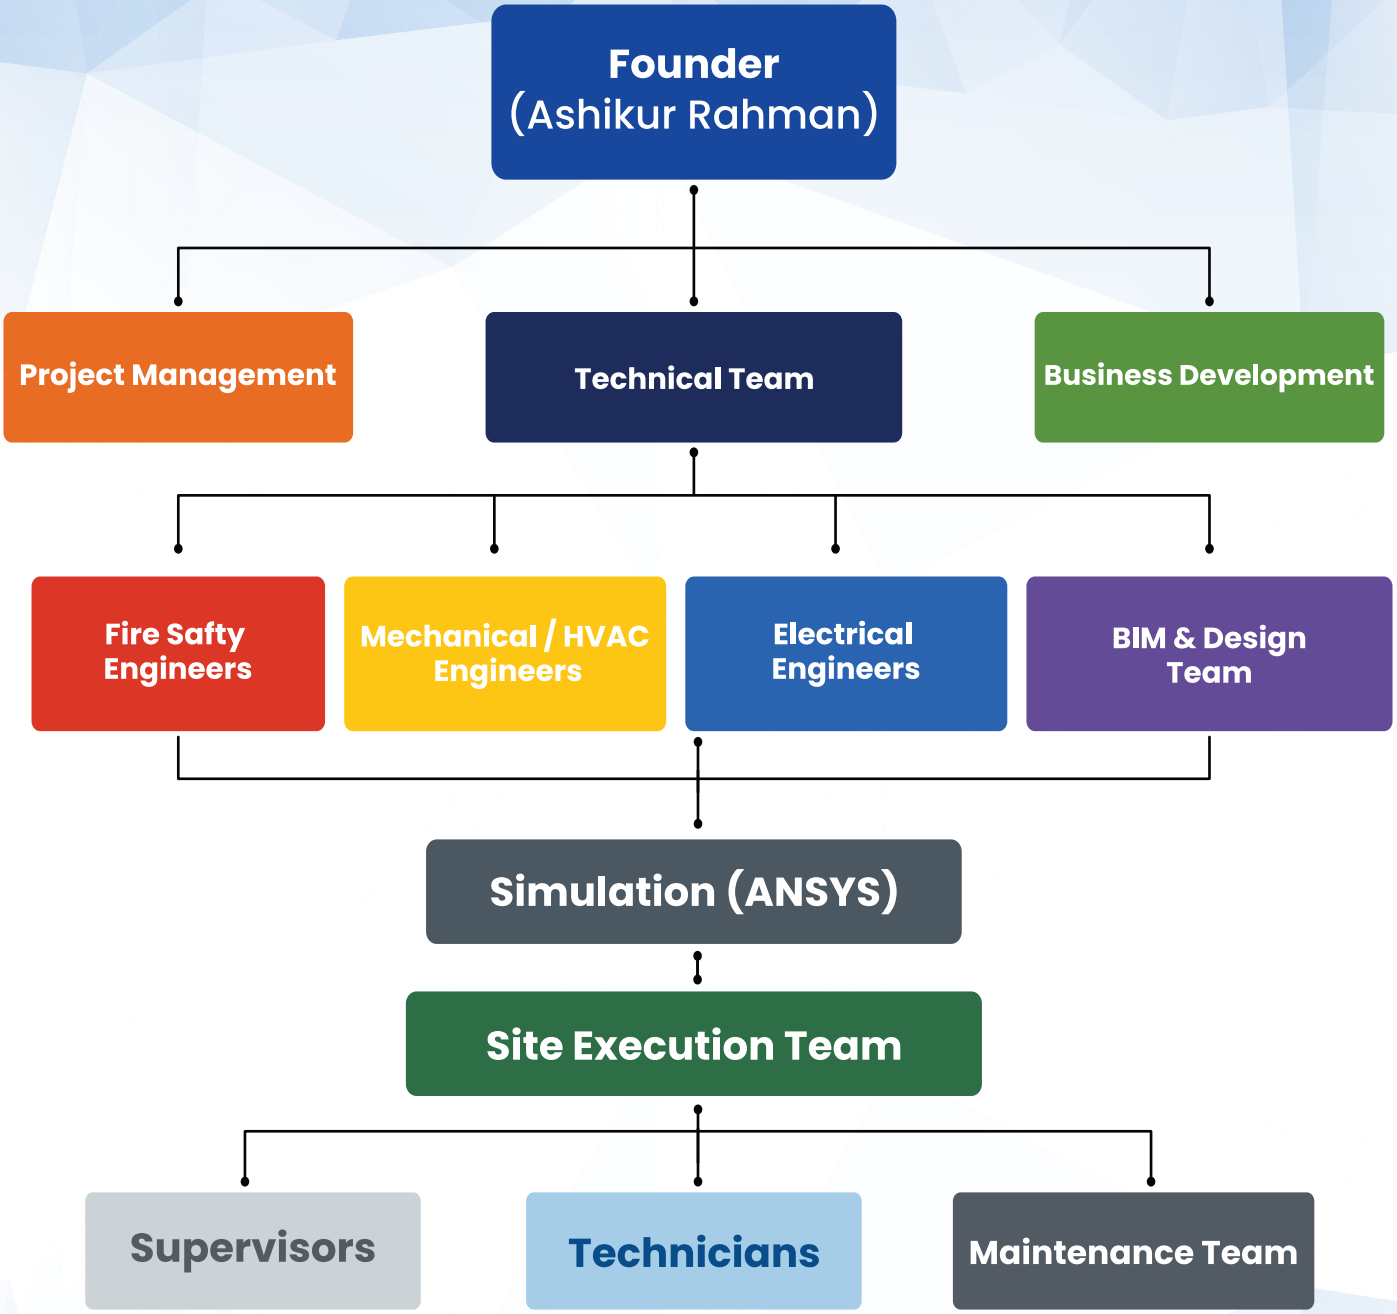

06

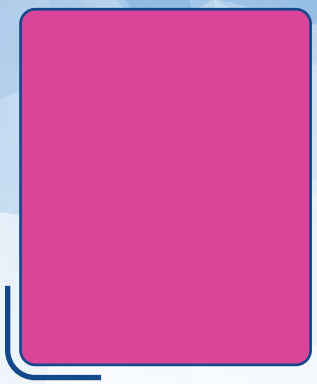

TESTING, COMMISSIONING & HANDOVER

- System Testing
- Performance Verification
- AMC Services
- System Optimization

National University, Bangladesh

SOLUTION PARTNER
OF AR ENGINEERING

Fire Protection System Partner

Emirates Fire Fighting Equipment Factory L.L.C (FIREX) serves as a trusted service partner for comprehensive fire protection system solutions. In collaboration with AR Engineering, FIREX supports the supply, installation, testing, commissioning, and maintenance of high-quality fire safety equipment and systems.

Fire Pump System Partner

Waterfall Pumps Manufacturing is a strategic solution partner of AR Engineering for fire pump systems, providing reliable and high-performance fire protection pump solutions.The company specializes in the design and manufacturing of NFPA-compliant fire pumps and packaged pump systems, supporting a wide range of industrial, commercial, and infrastructure projects.

Fire Detection System Partner

AR Engineering works as a Service Solution Partner for NITTAN fire alarm systems to ensure proper installation,commissioning, and maintenance of fire detection networks in compliance with project and regulatory requirements.

Passive Fire Protection System

AR Engineering works in collaboration with NAFFCO as a Service Solution Partner for the execution, installation, and maintenance of passive fire protection systems across various project types.

Passive Fire Protection System

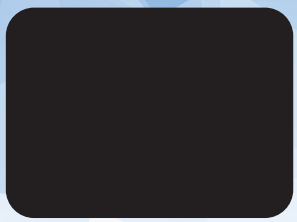

AR Engineering integrates Morgan Marine Blanket solutions as part of its passive fire protection service system for marine and industrial projects, ensuring reliable thermal and fire resistance performance.

Building Heating & Cooling System

AR Engineering proudly serves as the Service Partner for Building Heating and Cooling Systems of Lackeby, providing professional operation, maintenance, troubleshooting, and technical support services to ensure efficient and reliable system performance.

VALUABLE CLIENT
OF AR ENGINEERING

MEP Consultant

AR Engineering proudly serves as the MEP Consultant for AKH Group, providing professional consultancy services in Mechanical, Electrical, Plumbing (MEP), and Fire & Life Safety engineering to support the group's industrial and commercial developments.

Fire & Life Safety Consultant

AR Engineering proudly serves as the Fire & Life Safety Consultant for Rahman Sports Wear, providing comprehensive fire protection, fire detection, and life safety engineering solutions to ensure compliance with national and international safety standards.

MEP Consultant

AR Engineering proudly serves as the MEP Consultant for Purbani Group, providing comprehensive Mechanical, Electrical, Plumbing (MEP), and Fire & Life Safety consultancy services to support the group's industrial and commercial developments

EPC Contactor

AR Engineering is serving as the EPC contractor for Fire & Life Safety Systems at L Usine Fashion, providing end-to-end engineering, procurement, construction, testing, and commissioning services in compliance with applicable fire safety standards.

EPC Contactor

AR Engineering is serving as the EPC Contractor for Probidhi Apparels Ltd., delivering comprehensive engineering, procurement, construction, testing, and commissioning services for Fire & Life Safety Systems in accordance with applicable codes and standards.

MEP Consultant

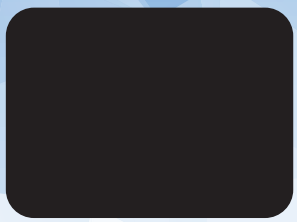

AR Engineering proudly serves as the MEP Consultant for Graphics Textiles Ltd., providing comprehensive Mechanical, Electrical, Plumbing (MEP), and Fire & Life Safety consultancy services to support the company's industrial development and operational excellence.

Passive Fire Consultant

AR Engineering is providing Passive Fire Protection System solutions for Stylemeth San Apparels, ensuring fire-resistive construction systems and compliance with applicable fire and life safety standards.

VALUABLE CLIENT
OF AR ENGINEERING

AMC for Fire Protection System

AR Engineering is providing Annual Maintenance Contract (AMC) services for the Fire Protection System at Palmal Group, ensuring the reliability, operational readiness, and compliance of fire safety systems through regular inspection, testing, preventive maintenance, and technical support.

EPC Contactor

AR Engineering is serving as the EPC contractor for Fire & Life Safety Systems for Envoy Group, delivering comprehensive engineering, procurement, construction, testing, and commissioning services to ensure reliable and code-compliant fire safety solutions.

Fire & Life Safety Consultant

AR Engineering proudly serves as the Fire & Life Safety Consultant for Dekko Group, providing comprehensive fire protection, fire detection, and life safety engineering consultancy services to ensure compliance with national and international safety standards.

Fire & Life Safety Consultant

AR Engineering proudly serves as the Fire & Life Safety Consultant for BITOPI Group, providing expert consultancy services in fire protection, fire detection, and life safety engineering to ensure safe, compliant, and sustainable industrial facilities.

Passive Fire Consultant

AR Engineering proudly serves as the Passive Fire Protection Consultant for IRIS Group, providing specialized consultancy services in passive fire protection systems to ensure compliance with applicable fire and life safety codes and standards.

AMC for Fire Pump System

AR Engineering is providing Annual Maintenance Contract (AMC) services for the Fire Pump System at Standard Group, ensuring reliable operation, periodic inspection, testing, preventive maintenance, and compliance with applicable fire safety standards.

AMC for Fire Pump System

AR Engineering is providing Annual Maintenance Contract (AMC) services for the Fire Pump System at Urmi Group, ensuring reliable performance through regular inspection, testing, preventive maintenance, and technical support in compliance with applicable fire safety standards.

CORE EXPERTISE

- Advanced Engineering & BIM Solutions
- Sustainable HVAC Systems
- Client-Focused Project Delivery
- Operational Excellence

PROFESSIONAL HIGHLIGHTS

- 10+ years industry experience with multinational track record.
- Proven Track Record with Multinational Companies
- Expertise in Large-Scale Engineering Projects
- Strong Focus on Quality, Safety & Operational Excellence

ASHIKUR RAHMAN

Founder & Chief Executive Officer

ABOUT ASHIKUR RAHMAN

Ashikur Rahman is the Founder and Chief Executive Officer of AR Engineering, established in May 2024. He is a highly accomplished engineering professional with a strong academic foundation, holding a PhD in Mechanical Engineering and a Master of Engineering (MEng) with specialization in Cooling, Ventilation, and Evaporation Systems.

With over a decade of professional experience, he has worked with multinational organizations, contributing to complex engineering projects across diverse industries. His expertise spans both technical and strategic domains, enabling him to lead high-performance teams and deliver innovative engineering solutions

LEADERSHIP VISION

Committed to Innovation • Sustainability • Safety • Operational Excellence
Focused on delivering modern, sustainable engineering solutions.

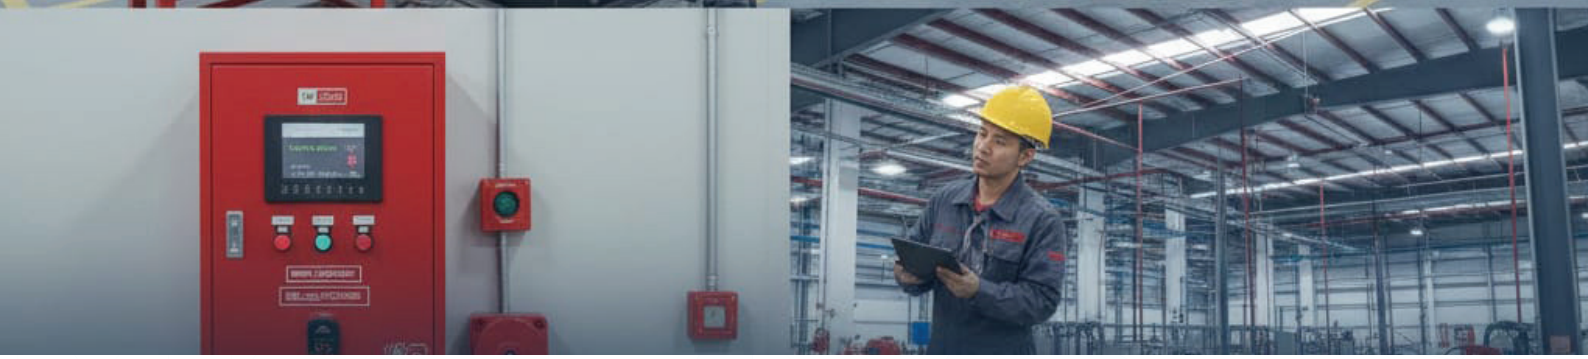

STRATEGIC DIRECTION

Under his leadership, AR Engineering focuses on:

- Quality and cost efficiency
- Standards compliance
- Timely project delivery
- Client-focused solutions
